

Датчик движения PIR-SS2200 (угол 140°, 8-12м)

Technical data:

- Multi-function: ON, OFF, infrared induction, infrared detection+sound control
- Wide working voltage: 90V/AC-240V/AC, works in the whole European market
- Detection distance, light-control and time delay are all adjustable.

Specifications:

- Power Source: 90V/AC~240V/AC
- Detection Distance: 10±2m max (22°C)(adjustable)
- Detection range: >140°
- Light-control: 3Lux~1000Lux (adjustable)
- Time-delay: 10±3Sec.~8±2Min(adjustable)
- Rated Load: 300W(110V/AC~130V/AC); 500W(220V/AC~240V/AC)
- Power Frequency: 50/60Hz
- Installation Height: 0.4m~1.8m
- Power Consumption: 0.45W (static 0.1W)
- Detection Motion Speed: 0.6~1.5m/s
- Sound Control Sensitivity: 30db~90db (adjustable)
- Working Humidity: <93%RH
- Work Temperature: -10°C~+40°C
